How to have even more professional banner adverts

I know that you've been enjoying using the free service (and what a great service it is!) but did you know that your dynamic ads can look **even more professional** and attractive?

Well, I'll get to that in a moment... (if you can't wait that long, go to the end to see the offer)

First, take a minute to think about the successful company Vista Print ([Save 35% Off All Vistaprint Brochures - click here](#)). On their site you can order really great stuff for your business for nothing! 250 customised business cards! Now this really is incredible (if you want business cards, this is a great company).

BUT did you know that their special offer cards say "Printed by www.vistaprint.com for free" on the back! Nobody ever orders the free cards (well at least, never twice)! You don't want to be seen as a cheapskate when it's **your** business on the line! So, you upgrade and remove the logo, it's worth it for the best business image. Don't get me wrong - VistaPrint are a FANTASTIC company, with amazing value products. It is just that, like all things in life, you have to pay just a little to get the *perfect match* for your needs.

Well, it's the same with www.AdvertSolutions.com . We're happy for you to use our free service, complete with our branding on every dynamic ad, hey it's free advertising for us!

But, is it in the best interests of your business? Do you really want every one of your contacts to know that you're using a free service? **Wouldn't it be better if they thought you were using a custom made ad?**

Of course.

Well, for the small cost of \$40 a year you can have banner ads that look custom made for you – the only name on the ads will be your name, all of our branding will be removed. It's a small cost for a more professional business image.
